

Ingram Hall Makerspace Safety Rules and Procedures

1. General Rules

- Access is limited to TXST students, staff, faculty, or authorized guests. Unauthorized visitors are not allowed into any room of the Makerspace.
- All users must complete and sign the [Ingram Hall Makerspace Participation Agreement](#) before entry to the facility is permitted.
- Users must check-in when entering the Makerspace. A TXST ID card is required for entry.
- Doors should never be opened for anyone. Doors must never be propped open unless explicitly authorized by Makerspace management.
- Unlimited check-ins may occur daily during operating hours, checking out is not required.
- Access to the Makerspace via adjacent rooms is strictly prohibited. All entry must occur through the front doors of PawPrint Studio (1st floor lobby entrance).
- Users are responsible for managing their personal items, such as raw materials and data on makerspace computers.
- Users are responsible for all samples, components, parts, assemblies, and raw materials stored in the facility. Items left outside designated storage areas will be considered abandoned and may be discarded.
- Food and drinks are prohibited in all tool and machine areas, including anywhere in the Industrial area. Food and drinks are allowed in PawPrint Studio 🍌🍌, provided they are not near equipment and the user cleans up after themselves.
- Running, horseplay, or disruptive behavior is strictly prohibited.
- All use of equipment and the facility as a whole is administered through the online management system, Facility Online Manager (FOM). FOM is reachable on and off campus at <https://fom.engineering.txstate.edu/>.
- Please acknowledge the Ingram Hall Makerspace in all publications and grant applications where equipment use, services, and/or expertise provided by our staff contributed to the final work product.

2. Personal Protective Equipment (PPE)

- PawPrint Studio 🍌🍌 has no PPE requirements.
- Safety glasses, long pants, sleeved shirts, and closed-toe shoes must be worn at all times when in the Industrial Area. Sandals, slip-ons, flip-flops, or open-toe footwear are not allowed. Shirts may not expose shoulders or mid-section.
- The same PPE requirements apply when passing through the industrial area to access adjacent rooms.
- Long hair, loose clothing, and jewelry must be tied back or removed before operating equipment.
- Users are responsible for providing their own safety glasses and dressing appropriately. Users will be denied access if attire is not appropriate.

3. Equipment Usage

- Users must sign up for equipment use under the correct project and account information.
- Users may only operate equipment they have been trained and authorized to use.
- Users must adhere to Standard Operating Procedure (SOP) and policy when utilizing equipment. Failure to adhere to SOP/policy is considered intentional or negligent equipment misuse.
- In-person training expires if equipment is not used within 180 days of the last use. Each use resets the 180-day period.
- Online policy and procedure quizzes must be renewed every 150 days, regardless of equipment or facility usage. These serve as a refresher and ensure awareness of updated policies and procedures.
- Some equipment and rooms may require completion of an external learning course as part of the training process. One example is LinkedIn Learning, which requires a LinkedIn account and profile. LinkedIn Learning is available to all Faculty, Staff, Students at no additional cost. [Click here](#) to visit ITAC webpage for more info. Once completed, these certificates do not expire for equipment training purposes.
- Equipment must be inspected prior to use. Do not operate tools that are damaged or malfunctioning. Report any broken or unsafe equipment to staff immediately. This may be done either by email or through FOM.
- In case of equipment malfunction during operation, stop use immediately and notify staff.
- Never leave equipment running unattended. 3D Printers are the only equipment that does not require you to be present during the full duration of the print.
- Do not attempt to bypass safety guards.
- Do not modify equipment or deviate from SOPs without staff approval.
- No weapons, or anything resembling a weapon, may be fabricated within the facility.
- After use, check-in equipment in FOM, power off equipment, clean the area, and return tools to their designated locations.

4. Workspace Procedures

- Keep aisles, exits, and emergency equipment clear at all times. Backpacks should be placed under desks or on hangers.
- Hazardous materials (e.g., solvents, adhesives, chemicals) must be labeled and used only in designated areas with approval.
- All spills must be cleaned immediately.
- Waste materials must be disposed of in the proper containers (scrap bins, chemical disposal, etc.).

- Project and work tables, including those in IGRM 1202D, are not to be used for storage and must remain clear when not in active use. Items left on tables may be moved or discarded as necessary, and the facility is not responsible for loss or damage resulting from such actions.

5. Emergency Procedures

- Users must familiarize themselves with the locations of fire extinguishers, first aid kits, eyewash stations, and emergency exits.
- In case of fire or serious injury, call emergency services and notify staff immediately.
- All accidents or injuries must be reported to staff, regardless of severity.

6. Responsibility and Enforcement

- Users are responsible for their own safety and the safety of others in the Makerspace.
- Failure to comply with safety rules may result in disciplinary action.

7. Personal Project & Student Organization Usage

- All users wishing to utilize the facility outside of required coursework or employment must sign and complete both the [*Photograph Release and Indemnity*](#) and *Release of Liability, Indemnification and Assumption of the Risk Agreement* ([*Adults*](#) / [*Minors*](#)). There are no exceptions.
- For student organization usage, students should coordinate with their budget manager or faculty advisor regarding accounting information.
- For any non-academic personal use of the facility, account information must be on file. Failure to settle outstanding balances may result in academic holds, preventing registration or the release of diplomas until all outstanding balances are settled.
- Students wishing to use Ingram Hall Makerspace for personal projects may qualify for internal rates when sponsored by a faculty member who agrees to serve as a project and budgeting mentor.
- Students wishing to use Ingram Hall Makerspace for personal projects who decline to use a faculty project mentor will classify as external users in accordance with [R/PPS No. 3.06](#).
- A 3% processing fee will be applied to all invoices settled via credit card.
