

Ingram Hall Makerspace

Instructor Sign-Up for Course Usage

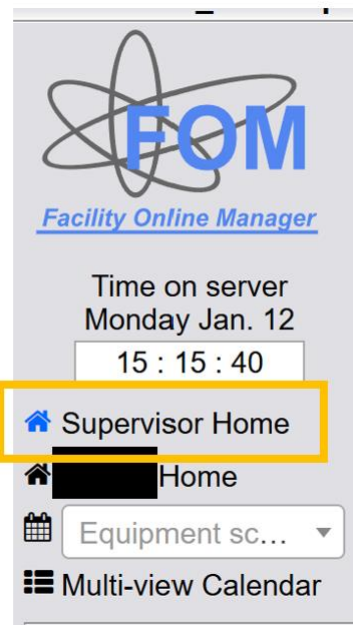

Spring 2026

For instructors wishing to use Makerspace resources for course content, please follow the instructions below. Please allow at least 2 business days for processing of all forms and submissions.

All agreement forms can be found at: engineering.txstate.edu/makerspace/forms

You will need to verify your email for every form requiring a signature.

1. Complete the [Course Usage Request](#) for the upcoming semester.
 - a. This form will route through at least one other person and will not be received by IHM until all parties have completed their assigned fields.
2. Complete the [Ingram Hall Makerspace Participation Agreement](#).
 - a. This must be completed every academic year by all users of the space, including all faculty, staff, and students.
3. For any use of the facility outside of required teaching duties, the following releases must also be completed:
 - a. The [Release of Liability, Indemnification and Assumption of the Risk](#) agreement must be completed annually every fiscal / academic year
 - b. The [Photograph Release and Indemnity](#) agreement only needs to be completed one time.
4. Visit <https://fom.engineering.txstate.edu>
5. After logging into FOM with your SSO credentials, you should be designated as a supervisor and see "Supervisor Home" on the left-hand menu (screenshot below). Navigate to this page to edit your course rosters.
 - a. If your supervisor role is not active in FOM within three business days after all parties have completed the Course Usage Request form, please contact IHM to resolve the issue.

6. You will see your requested course number(s) and section(s) listed as “Research description name”. **Do not change this description**, as this is what your students will see when reserving equipment.

Account Number	User Name	Research description name	Account Number Status
AccountNumber	Select or type to search ...	Add User	Upload Course Roster
Student Name	EX123.001		Active

7. To add users to this account and section:
- You may search individually in the drop-down box and add students one at a time (this only works if students have already created an account).
 - You may click the folder icon next to “Upload Course Roster” and upload a spreadsheet of your course roster. Students do not need to have an account made if this method is used.
 - Course rosters should be downloaded from <https://tim.txstate.edu/classrosters>. The spreadsheet must follow the format shown below, with at least the first five columns completed (A-E) and the header row present (Row #1):

	A	B	C	D	E	F	G	H	I	J	K
1	TxState ID	Net ID	Pref. Name	First Name	Last Name	Pronoun	Privacy	Major	Registration Status	Drop Date	Attendance

8. In addition to the rostered students, add yourself and any teaching assistant(s) to the course/section. This can be done through either of the previous methods.
9. Only students enrolled in the course, instructors, or teaching assistants may be added to the account.
 - a. Students may be added or deactivated from your FOM course at any point during the semester. It is important to remove students who drop the course promptly to avoid accidental (or intentional) fees by said students on the course account.
