

Ingram Hall Makerspace – LinkedIn Learning

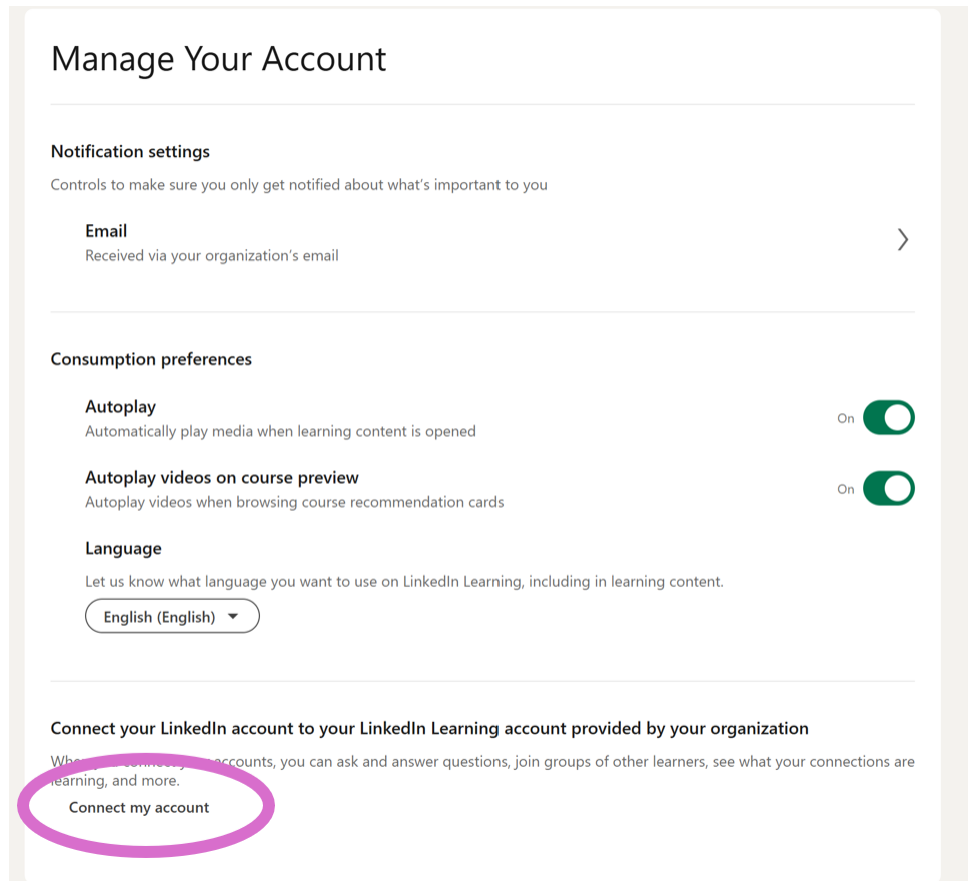

1. Log into LinkedIn Learning via TXST -
<https://services.txst.edu/TDCClient/39/ITAC/Requests/ServiceDet?ID=138>
2. Click **me** on top right menu

3. Click **settings**

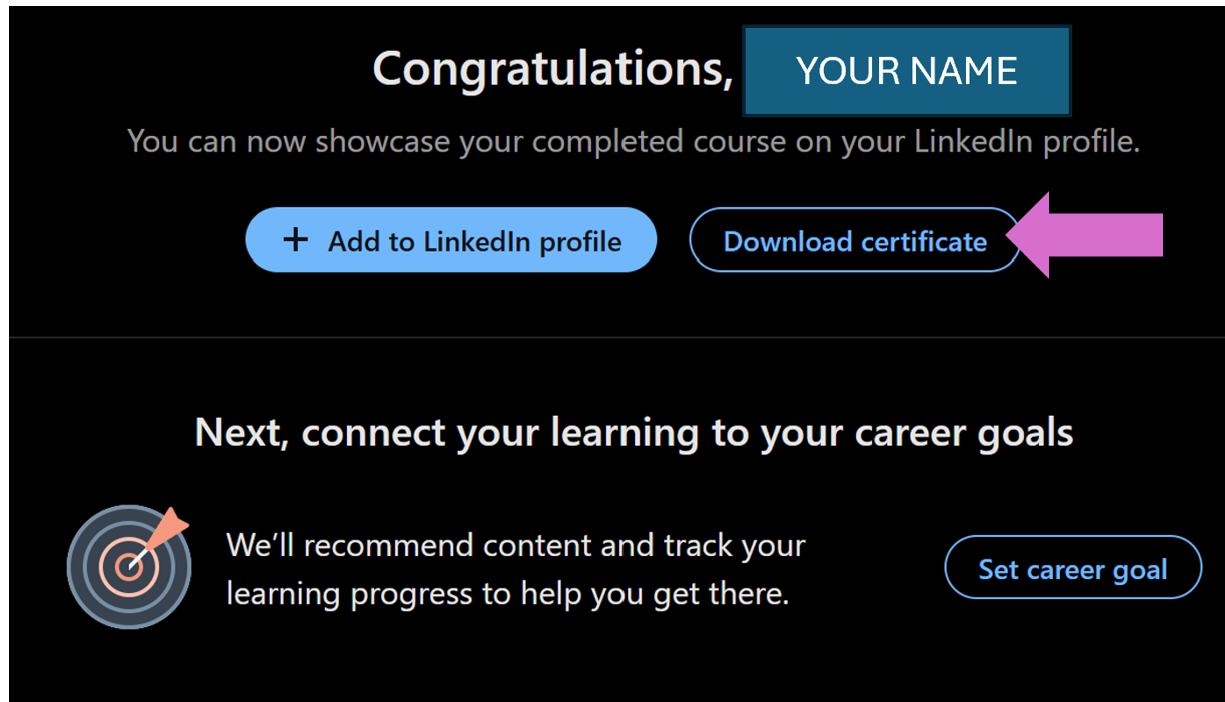

4. Then click **connect my account**

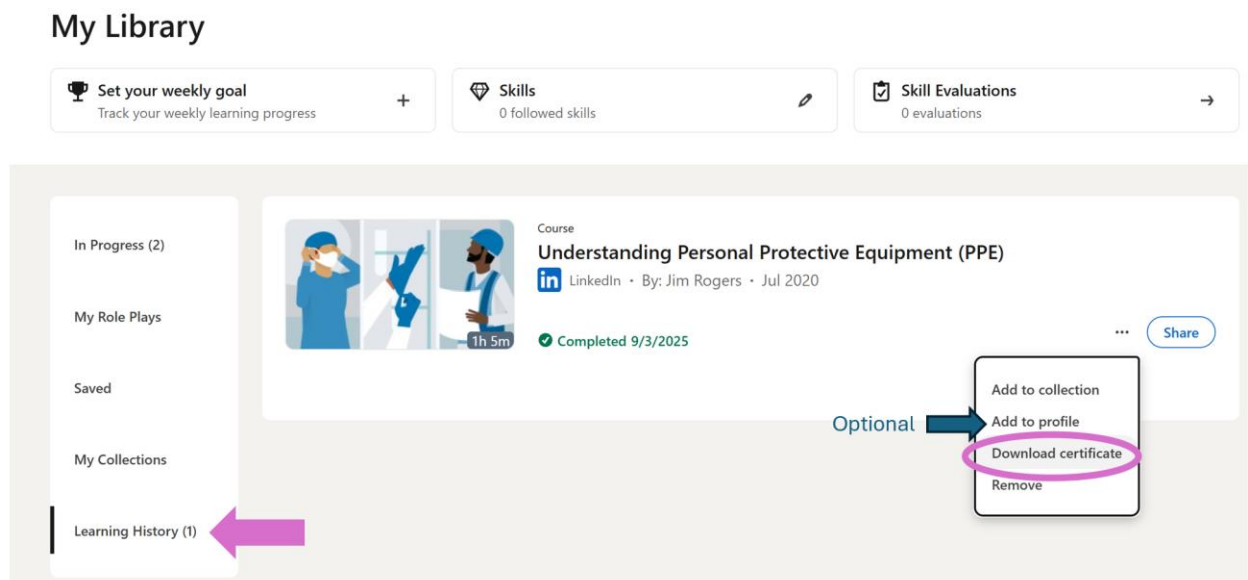

5. Proceed to link your personal LinkedIn account with the TXST provided LinkedIn Learning subscription.

Downloading and Uploading Certificates

1. There are two ways to download your LinkedIn Learning certificates
 - a. After completing the LinkedIn Course, you will receive a pop-up similar to the one below. Click **Download certificate**.

2. Alternatively, on your LinkedIn Learning home page, completed courses will appear in the “Learning History” tab. Click on this tab.
3. Click on the three dots next to your completed course to reveal another menu.

4. You may choose to share this certificate to your personal LinkedIn profile by clicking **Add to profile**.

5. Clicking **Download certificate** will start a pdf download for later upload for Makerspace training purposes.
6. Once downloaded, access the Makerspace upload form available [here](https://www.engineering.txst.edu/makerspace/forms.html). The link is also available on the main Makerspace web page at <https://www.engineering.txst.edu/makerspace/forms.html>
7. On the upload form, select the appropriate certification and file and hit submit. In the below example, the Understanding Personal Protective Equipment course has been completed as a prerequisite for accessing the Industrial Area.

8. Once the form is submitted, please allow two business days for processing. After two days, you should no longer receive a prompt such as the one shown below

Safety Requirements
×

You need to fulfill the following safety requirements for accessing the corresponding resources. Please click the requirement link for details.

Certificate Link	Description	Deadline	Related resources
LI - PPE	LinkedIn - Understanding Personal Protective Equipment	01/28/2026	Industrial Area, 1202D Project Room
