

Ingram Hall Makerspace – Project Work Room (IGRM 1202D)

1. General Rules

- Access is limited to TXST students, staff, faculty, or authorized guests. Unauthorized visitors are not allowed into any room of the Makerspace.

2. Booking & Access

- Access to the room itself requires no reservations, though certain equipment, worktables, and other similar items may require reservations.
- Card access may be granted through FOM and the completion of prerequisite room/equipment access and training quizzes.

3. Room Arrangement & Policies

- IGRM 1202D has several project tables designated for project use for short-periods. When entering the room, these are located on the right side of the room.
- The left side of the room is designated for classroom instructional use and its associated equipment. General loitering, assembly, equipment use or any similar activity should not occur on this side of the room without permission from the supervising Mechanical Engineering Faculty.
- Kardex Vertical Lift Module (VLM) trays are available for monthly rental. These can be rented via the FOM “Lending Items” Menu.
- The Kardex should only be operated by those with active tray reservations. Any items in trays that are not under a rental agreement will be discarded.
- Instructions for operation of the VLM are posted on the machine. For more assistance, please find an MST.
- Users must be respectful of shared spaces and maintain a clean and organized work area.
- Any projects, materials, or equipment left in the room (excluding on tables with an active reservation or in a VLM tray) may be discarded. No items should be left on the floor at any time. The Makerspace is not responsible for any loss or damage resulting from these actions.
- All tools, equipment, and materials must be returned to their designated locations after use.
